

June 26, 2020

Dear Parents/Guardians,

We are very happy with the response we received for the Summer School program. It has been great to have students on campus again. Especially those that are new to Bishop Moore Catholic. Although this was not our typical Summer School, it was a great opportunity to reconnect with our students.

In response to a few requests for students to complete their classes virtually in conjunction with us monitoring the current situation with COVID-19, we decided to assess the progress made in each class. After two full weeks of Summer School, we feel confident we are able to conclude classes on Tuesday, June 30th.

Geometry Honors will receive information from their teachers, as they will complete some additional coursework.

Grades will be available in RenWeb at the beginning of the school year. We pray that you have a safe and healthy July and we look forward to seeing all of our students in August.

In Christ,

Administration
